

## Light Towers on Location

Wellsite Fishing & Rental Services continues to supply operators with long run time, diesel-powered, & LED light towers throughout the Permian, Utica and Marcellus shale regions. Wellsite's light towers provide superior illumination with high powered LED bulbs, reducing the amount of towers required to properly, safely illuminate well locations and pads.

Along with the cost savings provided, the efficient technological design of Wellsite's light towers utilize less fuel than others on the market, providing 15-20% longer run time per fuel tank.

Contact Wellsite's nearest facility to reduce your costs while increasing the illumination and safety on your site location today!
