

7-1/16” 10K WELL CONTROL BOP

Wellsite Fishing & Rental Services, LLC is pleased to offer 7-1/16” 10k well control blow-out preventers (BOP's). These BOP's are available in both single and double stacks. The Double BOP comes with shear tandem boosters with shear rams. We can also provide a two-inch and four-inch flow cross with manual gate valves. The accumulators have a diesel motor with nitrogen back-up and come equipped with fire-resistance hoses. We have certified BOP field techs available to rig up and down BOP equipment on location.

Wellsite Fishing & Rental Services, LLC rebuilds, tests, charts, and drifts all BOPs in-house, and has a strong QMS system in place. Every task has strict doctrine and handled with the utmost care and safety in mind. All BOPs are certified and built in the United States.
