

We are a comprehensive rental equipment provider for the drilling, completion and production sectors of the oil and gas industry. Our mission is to deliver the best solution for our customers in a timely manner with the highest quality service and focus on safety.

The talented and well-respected management team at Wellsite Fishing & Rental Services has more than 100 years of collective experience in the oil and gas service business. It's this seasoned team, with a proven track record, that allows Wellsite to deliver value to our customers while reducing drilling and completion costs.

THRU TUBING SERVICES	
Composite Plug Mill-Out	Side-Tracking
Sand Clean-Outs	Packer Milling
Acid Jetting	Washing Over
Fishing	Plug and Abandonment

TUBING AND HANDLING TOOLS
2-3/8" and 2-7/8" PH-6 Internally Coated Tubing
No rattling required
Drastic reduction of friction reducing chemicals
Reduces pump pressure - achieves fluid velocity

PUMPS, TANKS, SWIVELS
5K and 10k Pumps
2.5 and 3.5 Swivels
Reverse Pits

CASED HOLE FISHING TOOLS
Parted pipe / Parted rods
Stuck tubing / Stuck packers
Casing problems

LONG RUN DIESEL, LED LIGHT TOWERS

Design Features

- High-efficiency 50,000 hour LED lights: 4 lights provide 200,000 lumens
- High-quality Perkins industrial diesel engine, 3-cylinder, water-cooled system
- Compact when stored, yet rises to 30 feet when deployed
- Light tower mast rotates 360 degrees and each individual light may be aimed
- 54 gallon fuel tank

Wellsite Fishing & Rental Services is now providing long-run diesel light towers. These towers are brighter than metal halide light towers and are available in ultra-quiet 58 dBA at 30 inches and 68 dBA at 18 inches. WFRS's light towers offer "instant on" functionality, meaning they will be at full brightness right away. They also have a daylight-to-dusk setting that will automatically turn on at dusk and off at dawn.

Long-run diesel light towers are a safe and effective outdoor job site lighting solution. Light tower safety features include built-in fluid containment to protect against ground contamination from leaks, spills and drips; large external emergency stop button for quick manual engine shut down; built-in forklift channels; and low-fuel indicator light alerts when 48 hours of running time is left.
